The Concept

RETHINKING THE WHEELCHAIR: DESIGNER WHEELCHAIR AND ACCESSORIES

Wheelchair Covers

Personalised Wheelchair

What if you could swap out your wheelchair like you swapped out your clothing? Durable medical equipment meets high fashion.

Allowing your equipment not only to transport you from place to place but to transform you into the person you know you are deep down.

So strap on your ballgown and slippers and be prepared to travel to destinations unknown- where only adventure awaits.

Introducing the god/goddess chair. A wheelchair that supports you and elevates you to the god/goddess you are meant to be.

"Don't let this fool you this is not the body I was meant to be in. A year ago I had breasts, I had legs and toes. I had teeth! And look the medical community is trying to cure me. God help us all"
