

keeping time

" When I think about summer, I see this image on the back of my eyelids. As a kid the appearance of migrating swifts would always mean the summer holidays are coming, a brief connection between the rhythms of my little life & the birds in the sky. "

TEMPORALITY: the state of existing or having a relationship with time.

PHILOMEL

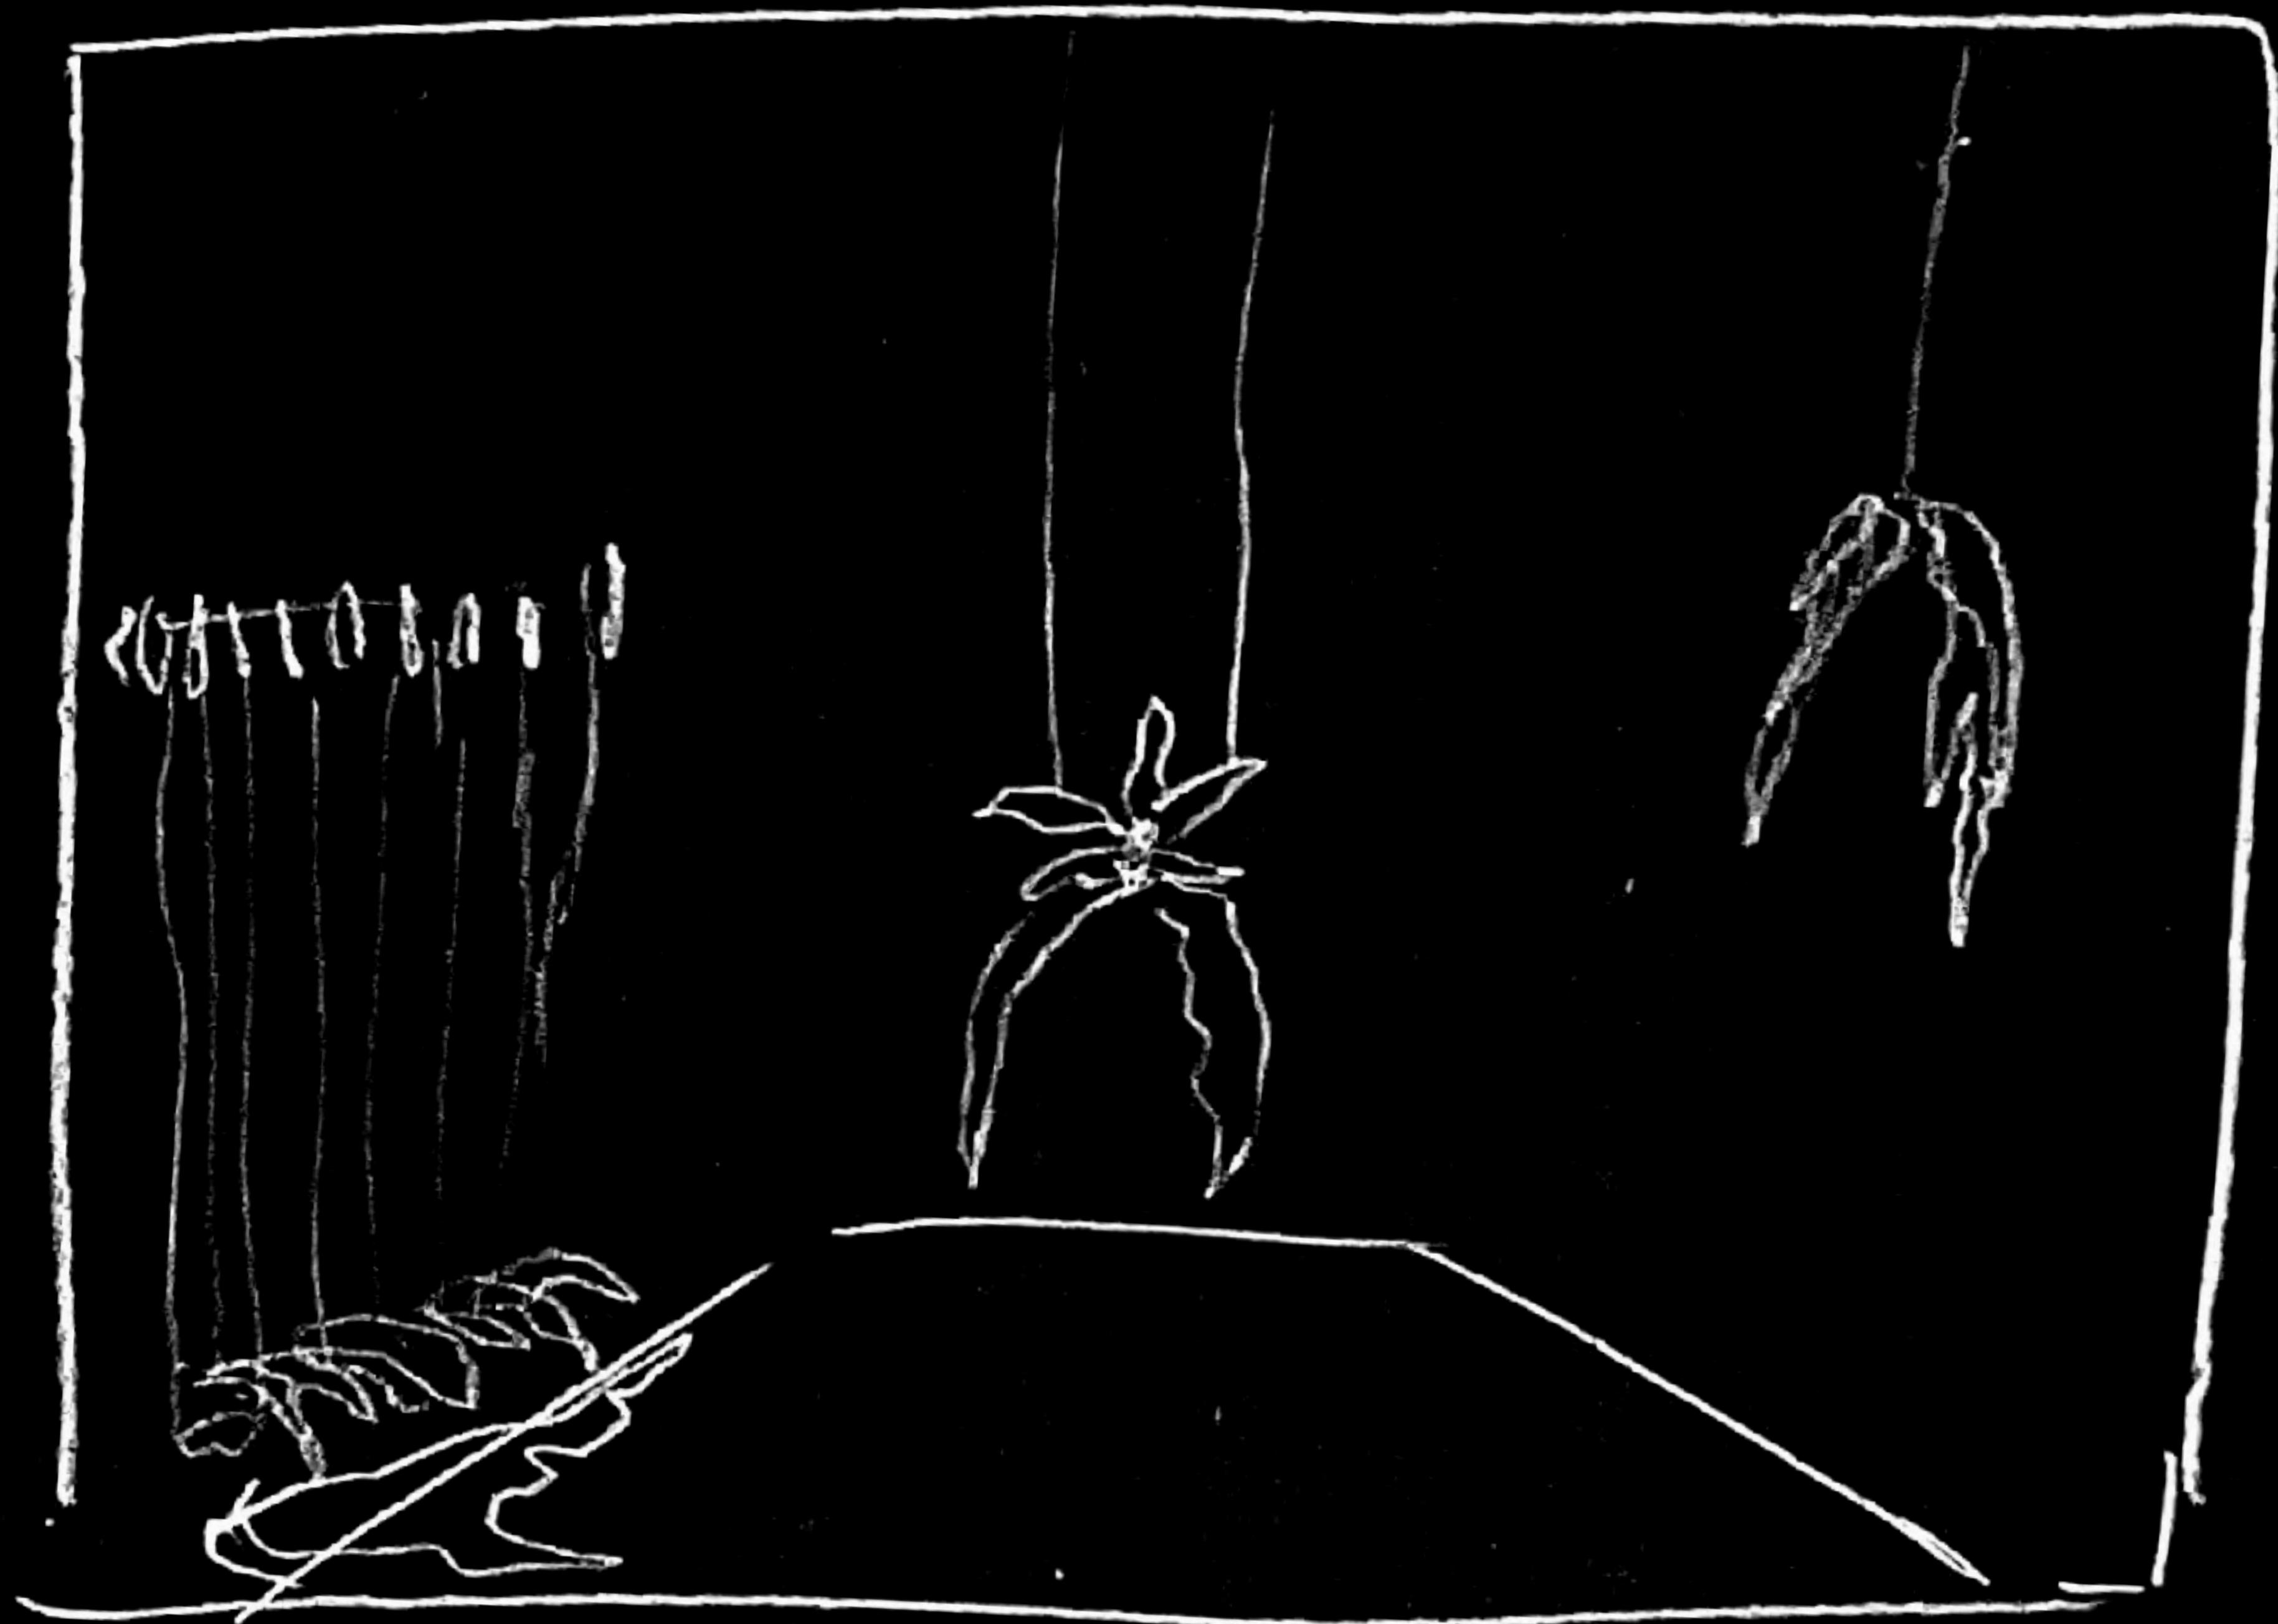

Fast, Chaotic,
Dissonant, Out of Synch.

phase one :

research

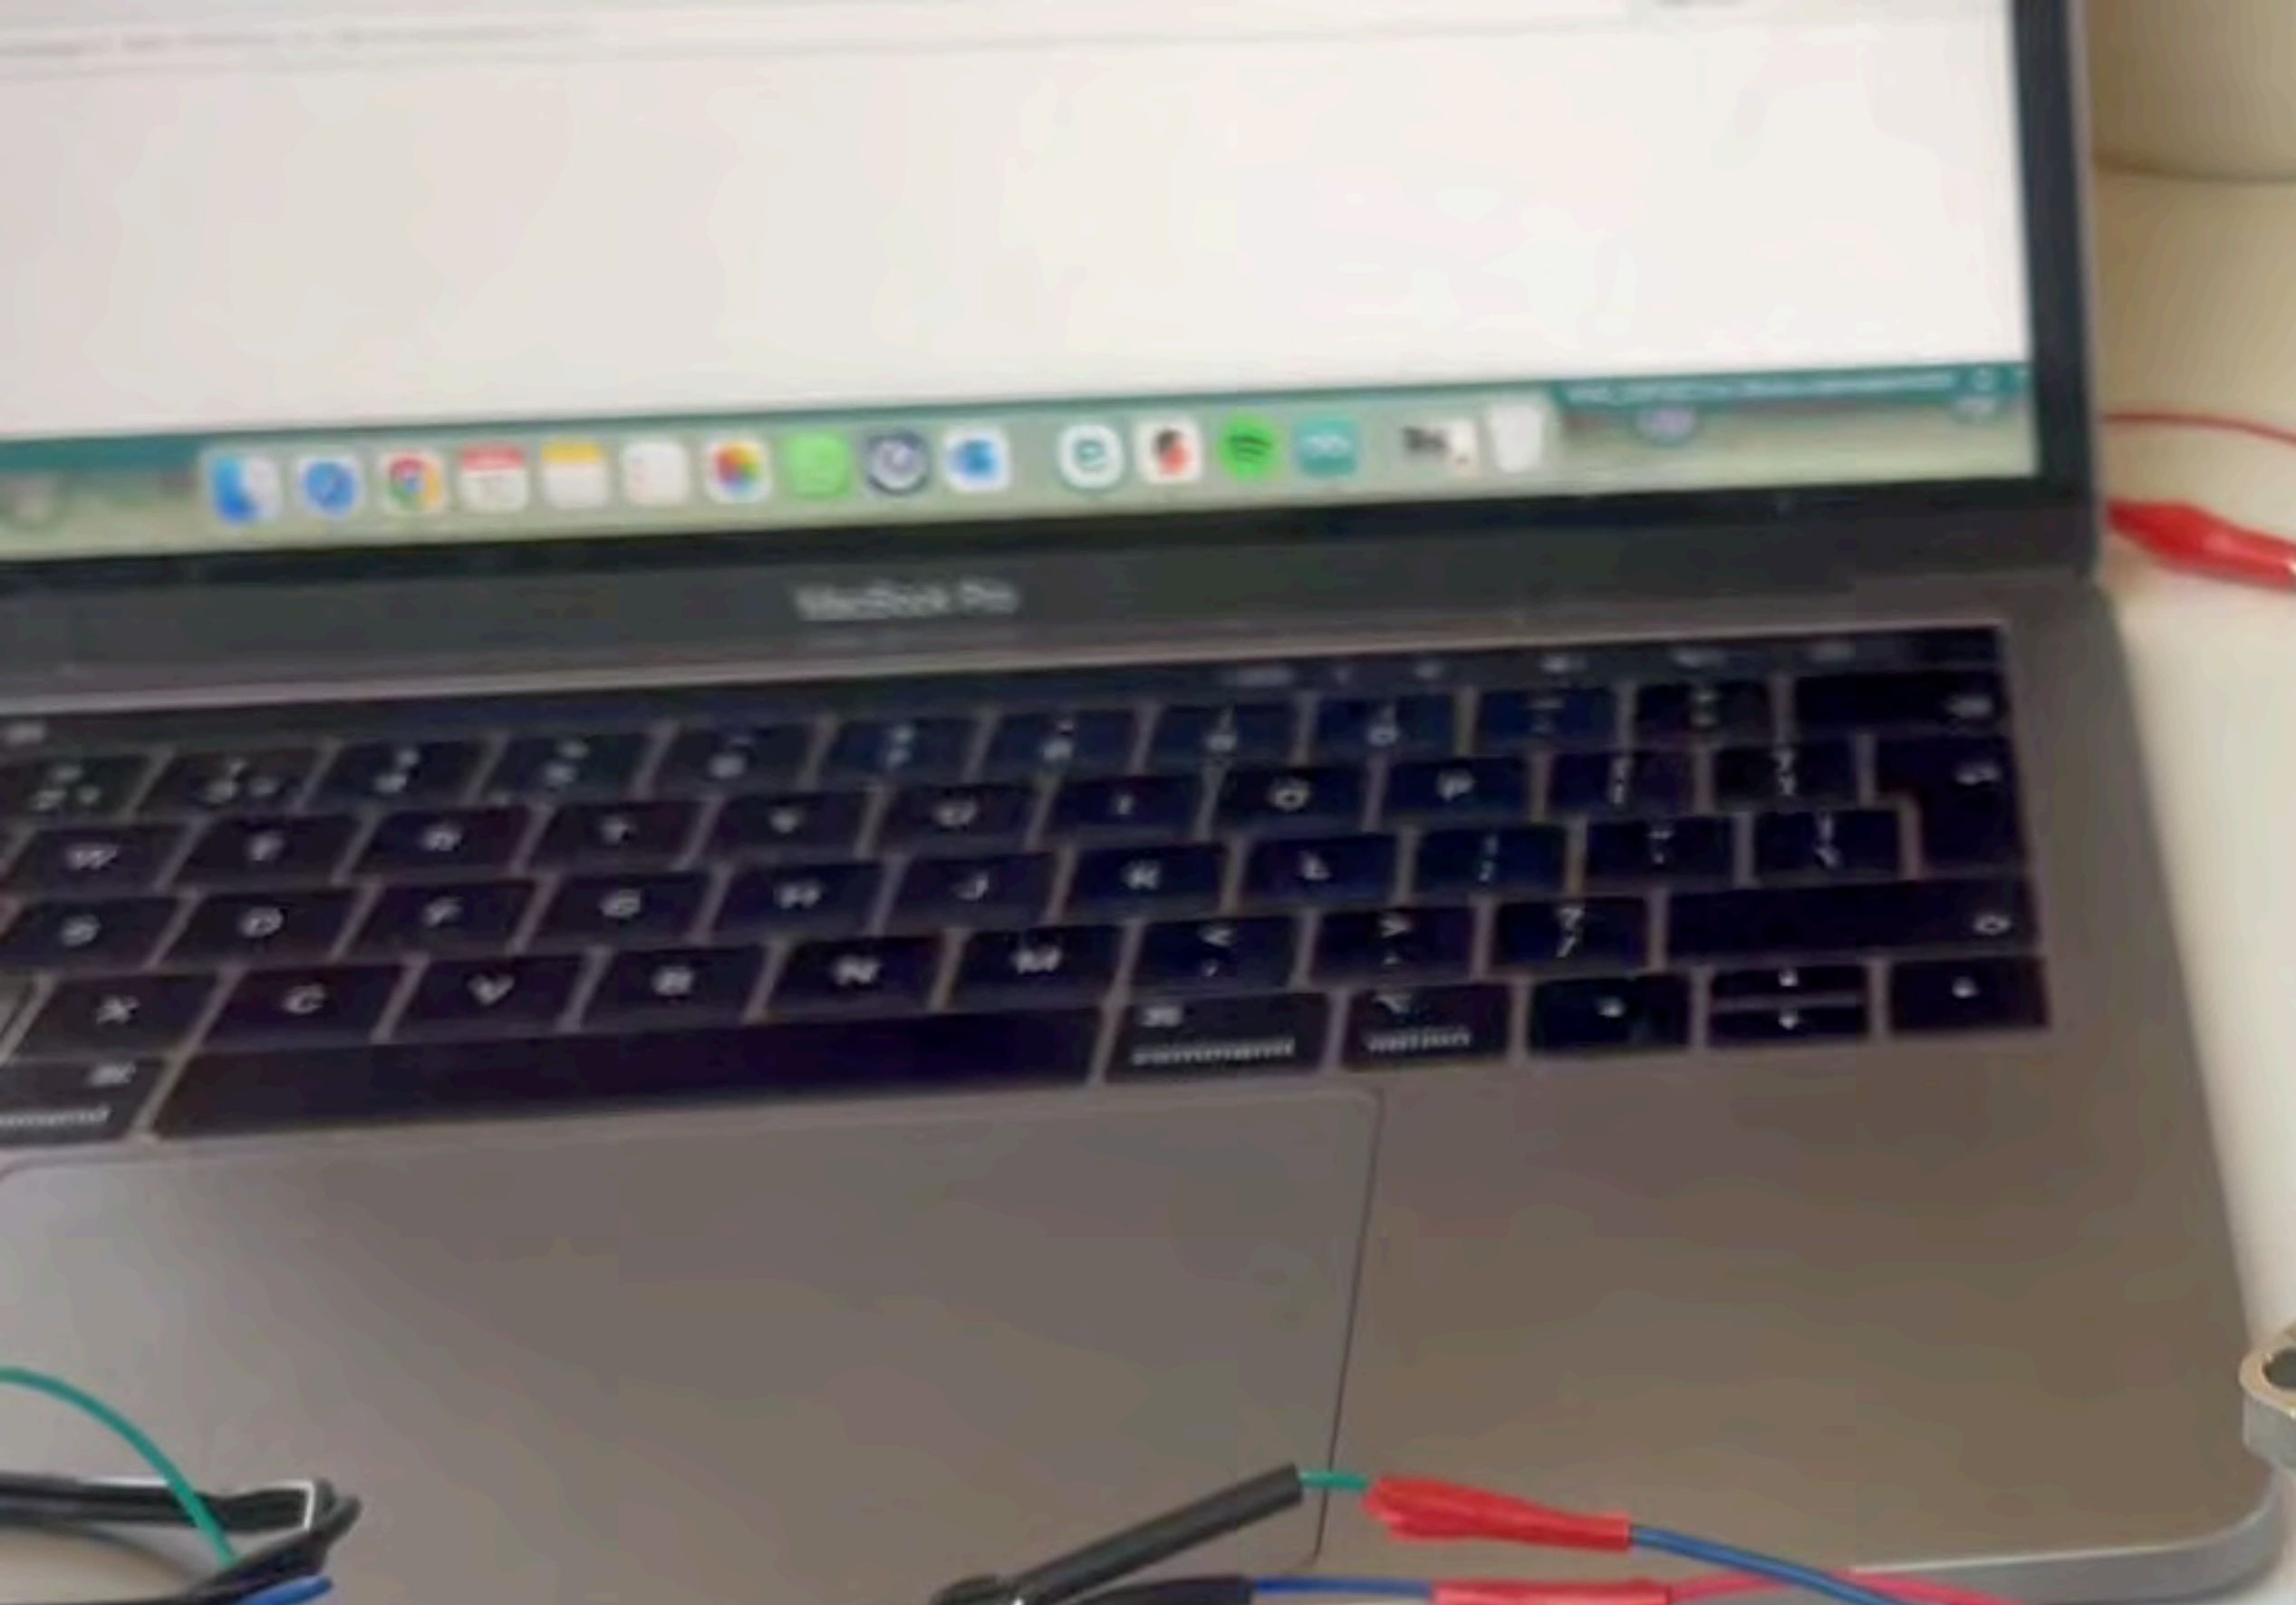

ideation

design

prototype motion

phase two : electronic interaction

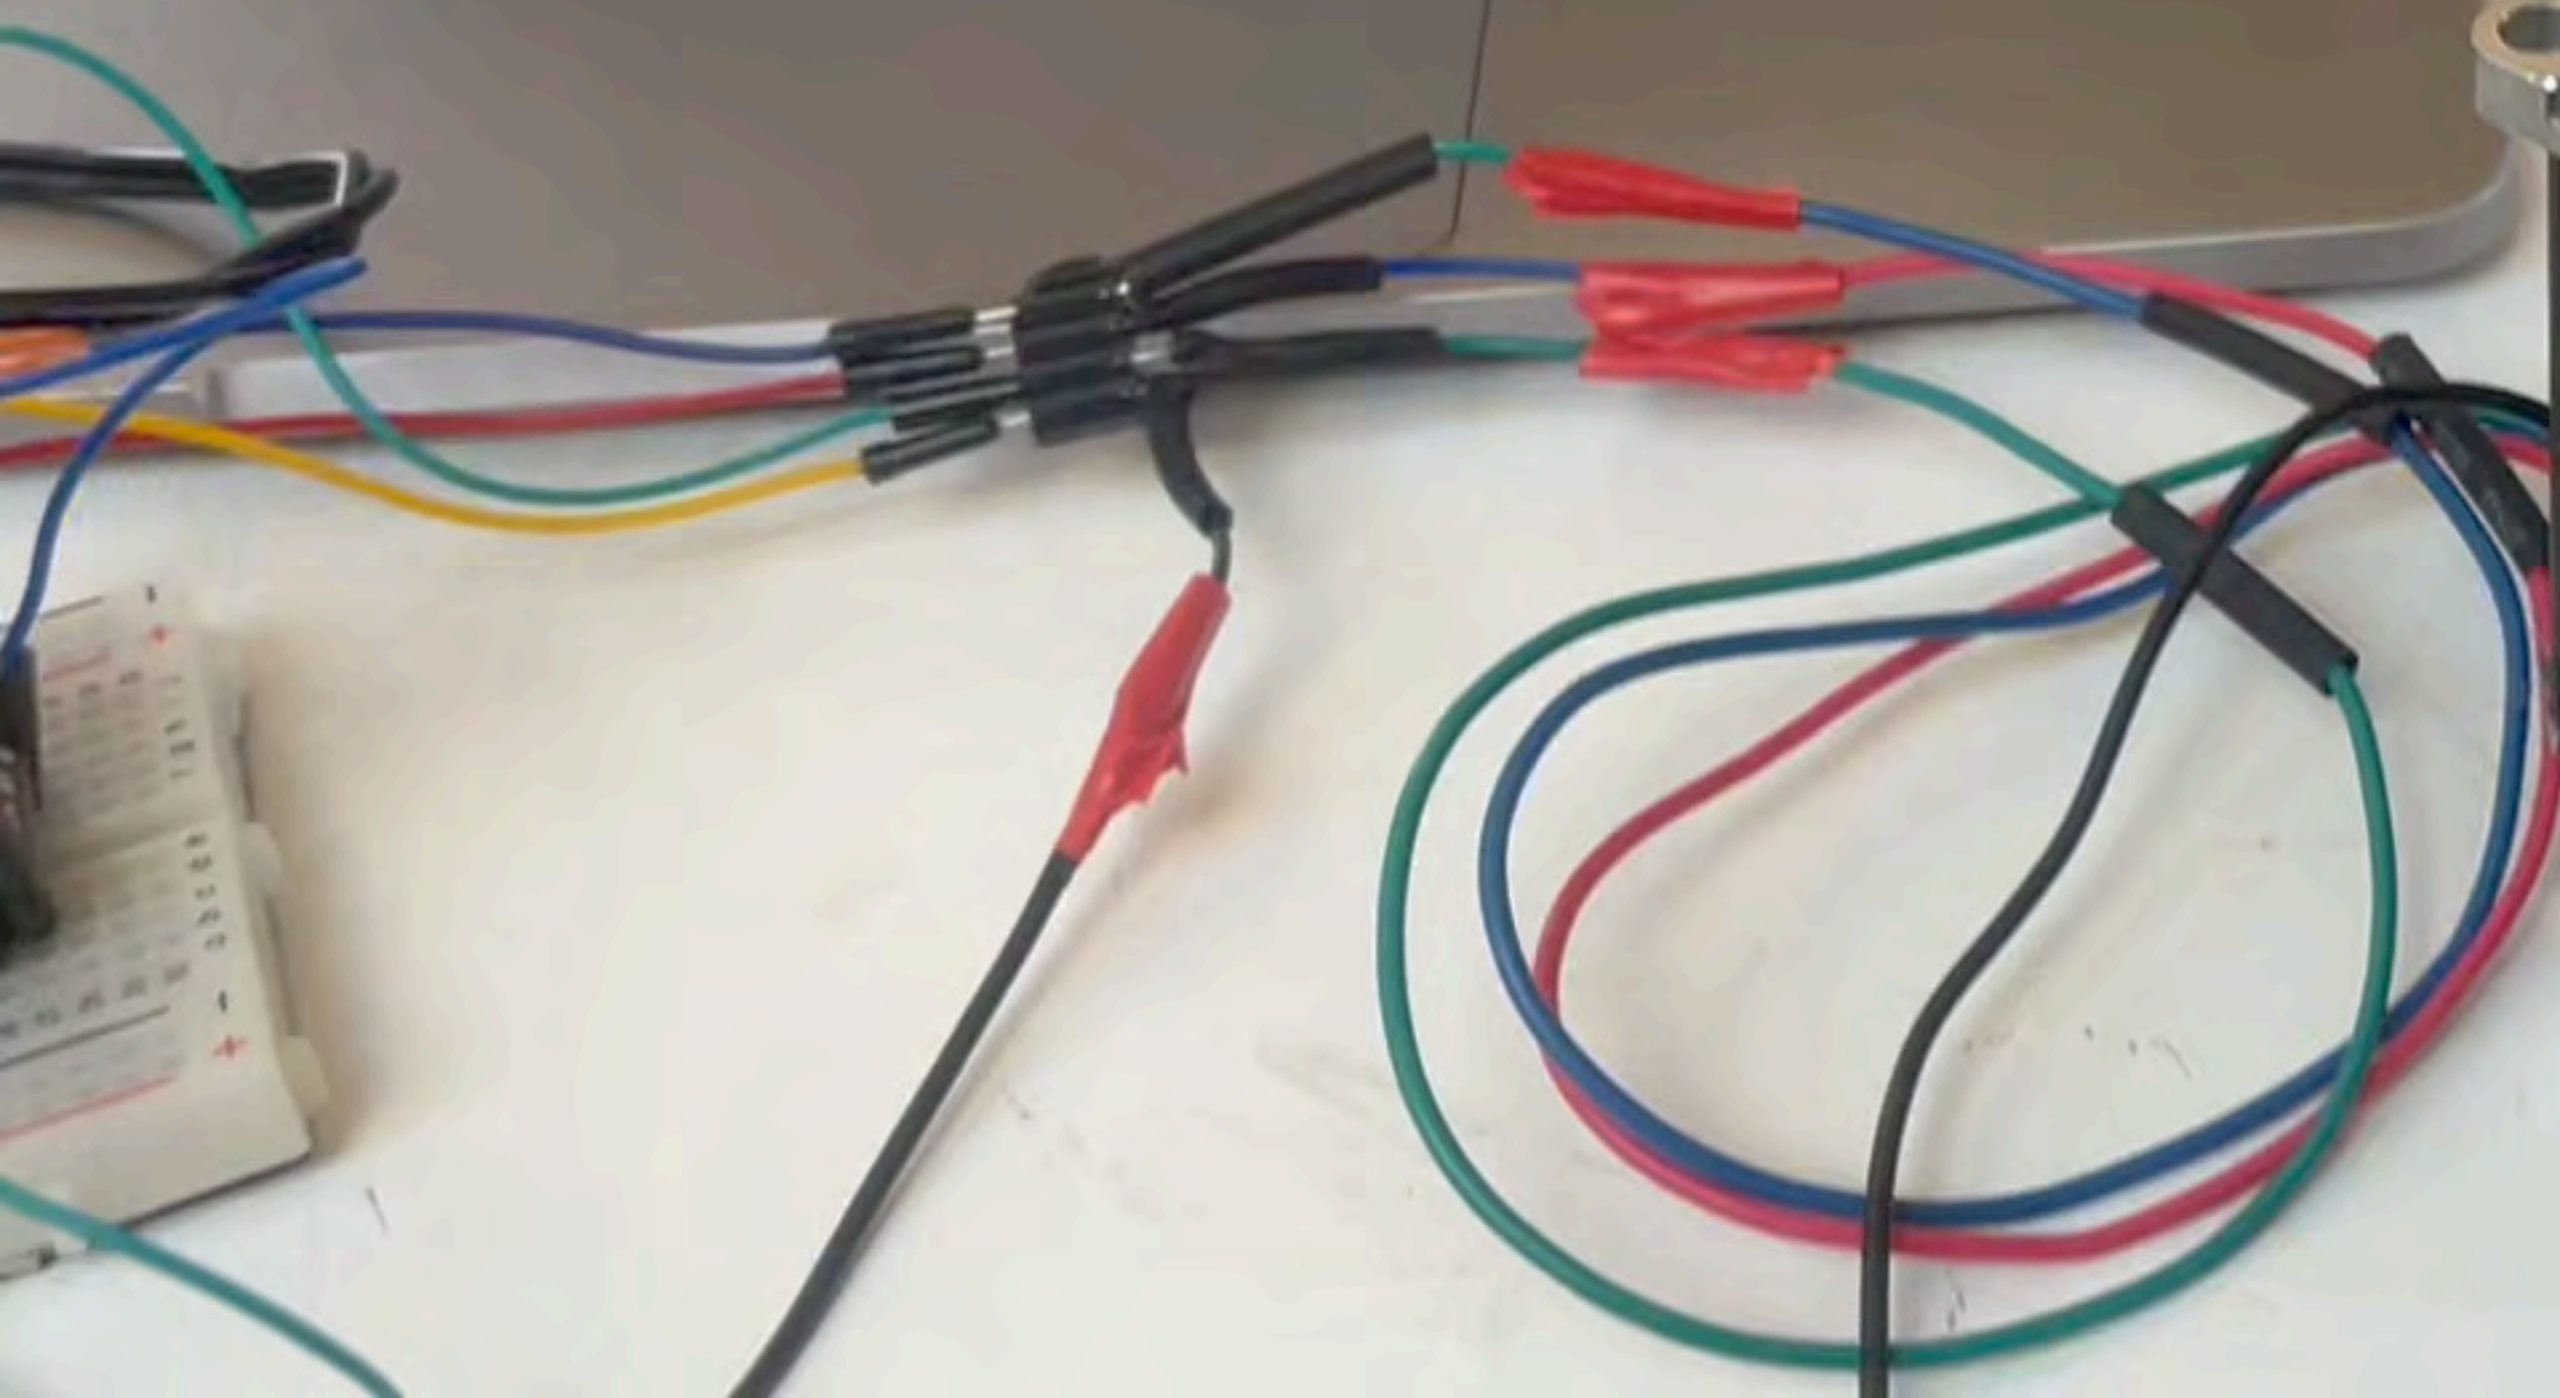

Handwritten notes on a piece of paper:

- Get up for available
- Working up
- Check Mergers
- Low-Ten for them
- Do not
- Low-Come
- Low-Risk very fast
- Design Road
- Redesign Bird

Another piece of paper has a diagram of a servo motor and some handwritten text:

- Code
- Design Servo
- Connector
- Low-Risk
- Low-Risk
- Low-Risk

phase three:

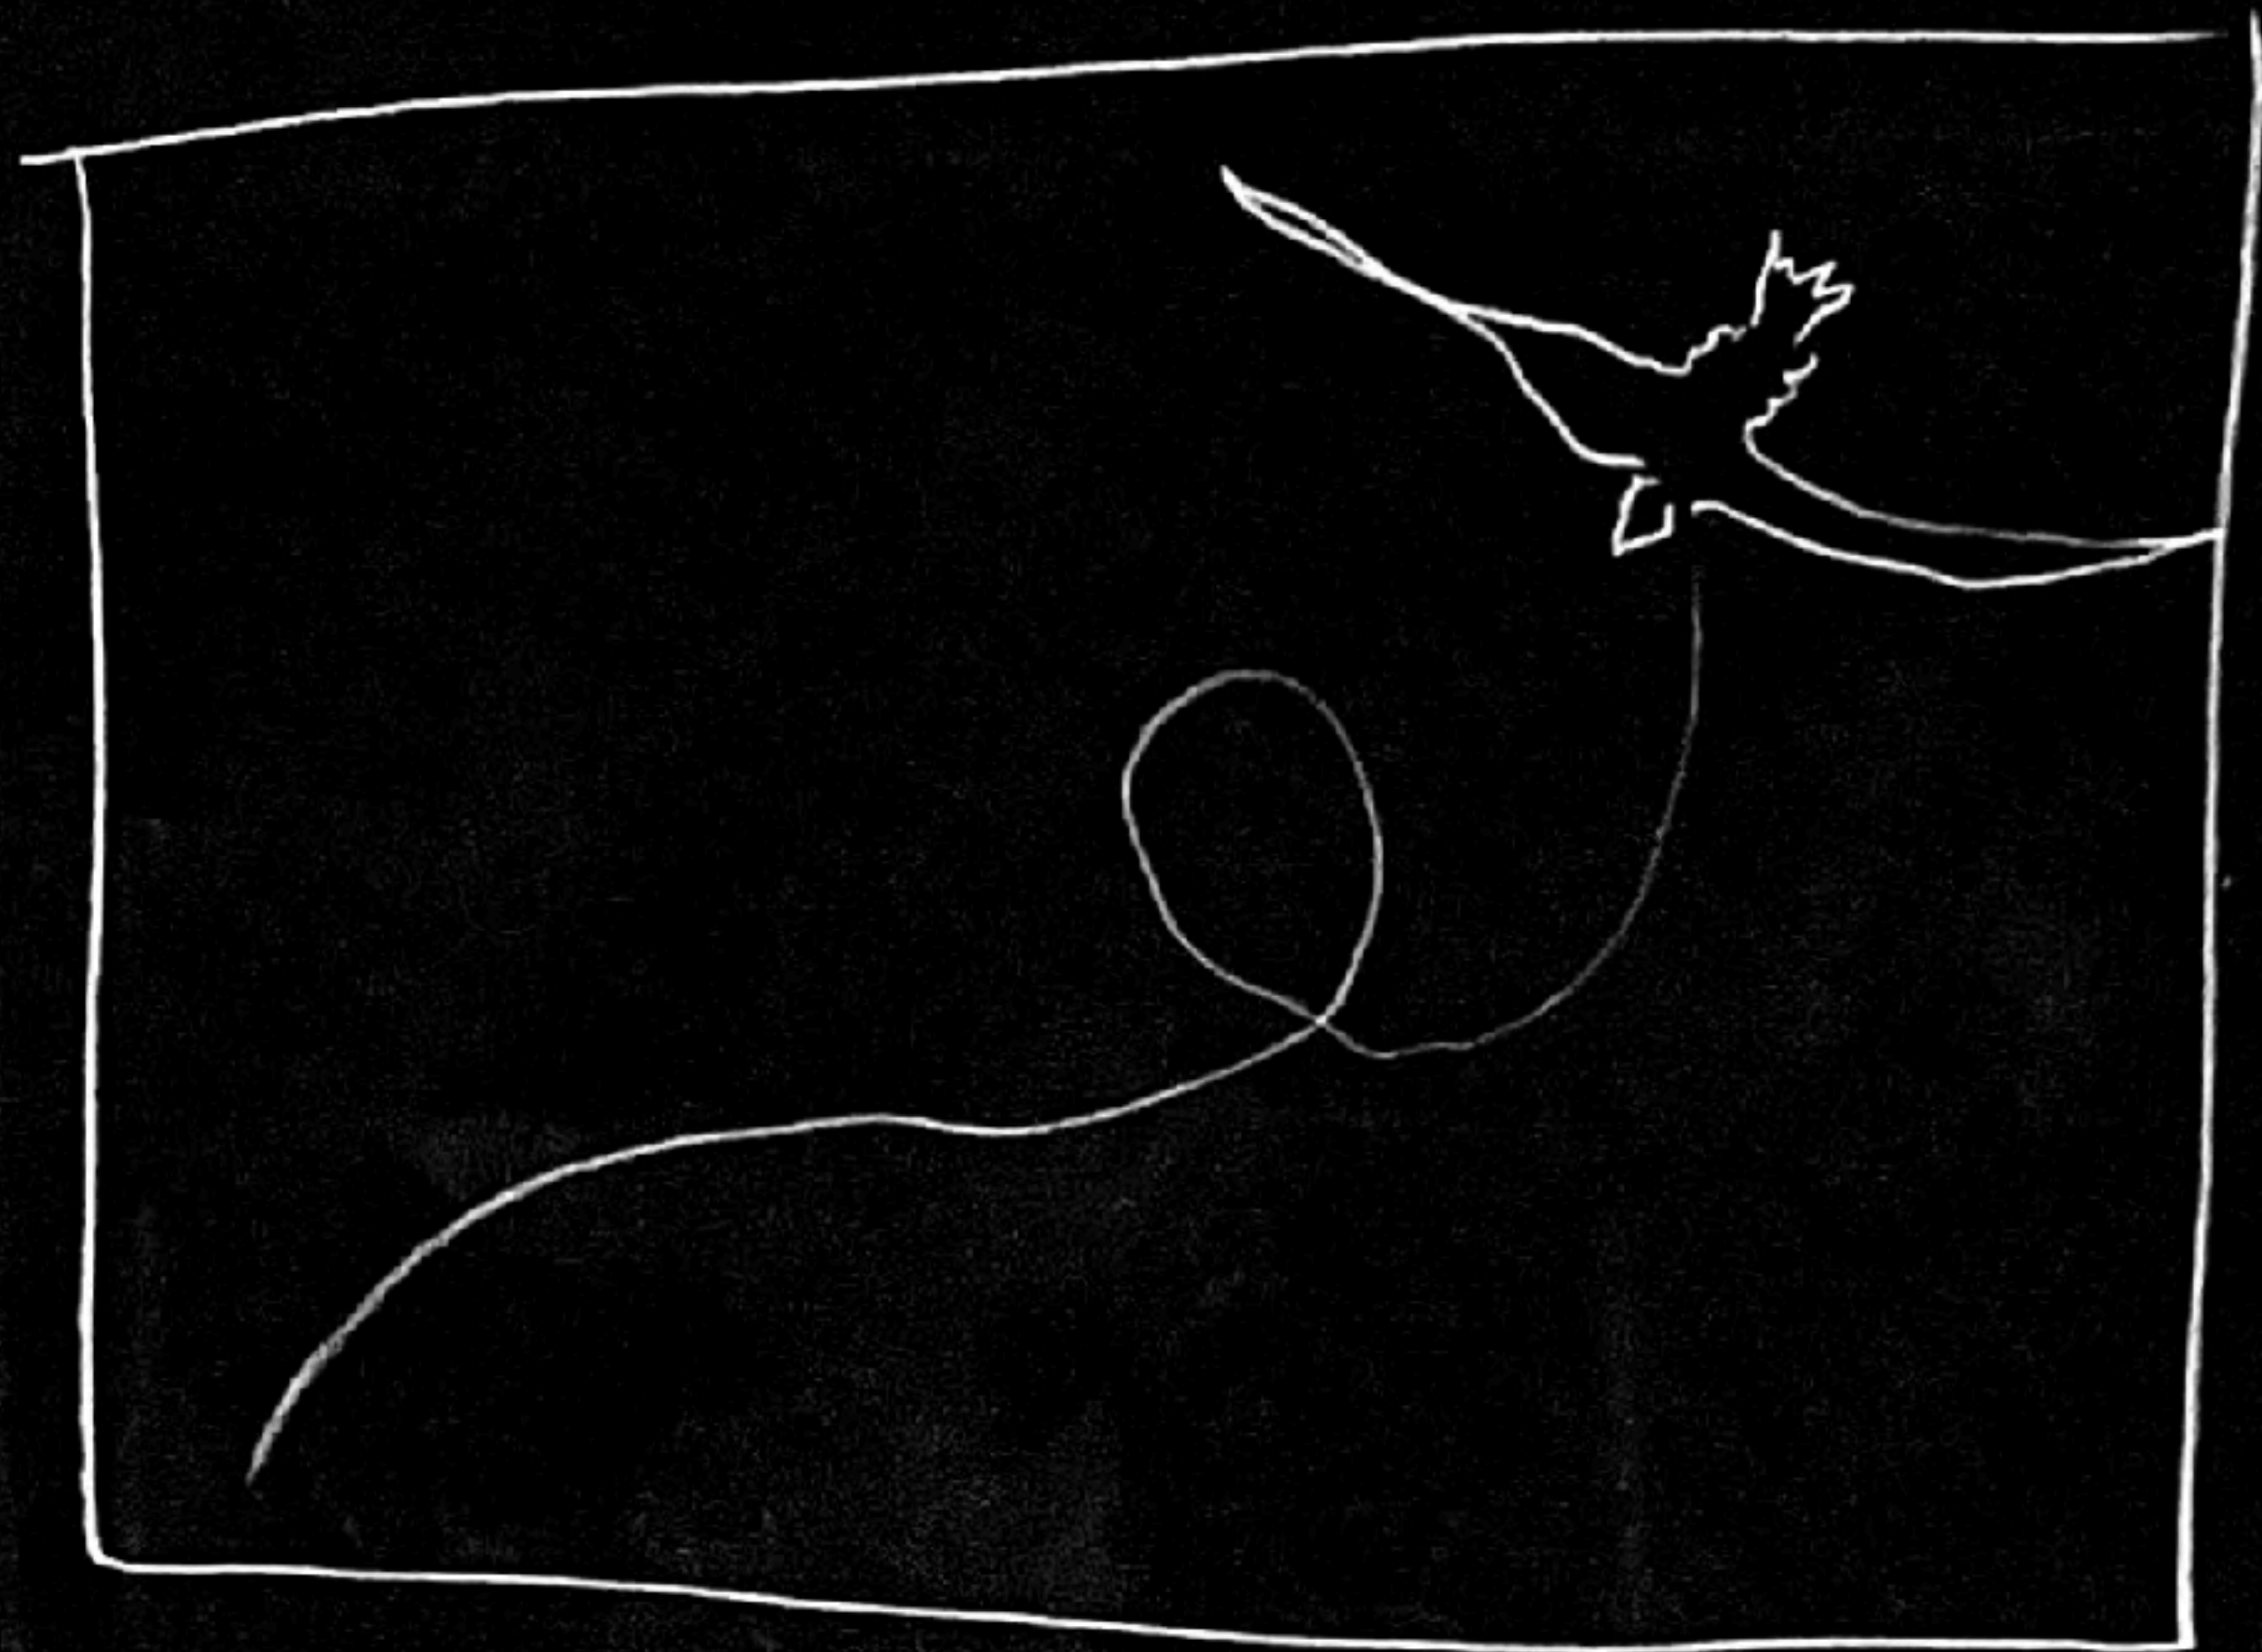

material upgrades and
aesthetics

phase four :

interaction
narrative

" Sometimes it's not about speeding up
or slowing down. It's about keeping
time with wingbeats, the opening of blossom
e the descent to the sea floor. "
