

Presentation - ElectricThreads

Gabríella Kamí Árnadóttir Fabricademy 2024 - 2025

Backplate and Harness Integration

Secure and supportive structure for costume attachments.

Removable sleeves with LED Lights

Easy to detach; customizable lighting for dynamic effects.

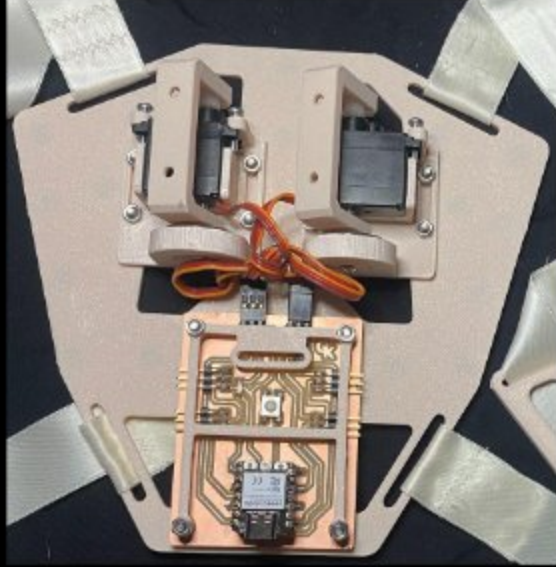

Front Harness Attachments

Discreet connection points for chest and torso elements.

Back Harness Attachments

Ideal for wing, capes, props, and back-mounted features.

Seams and Snaps Designed to prevent Irritation

Smooth finishes and thoughtful placement for long-wear comfort.

Thank you
